For us it's all about nuts. After 50 years, we are entering generation 3.0 with Auel. For us, personal contact with our customers and local and regional cohesion are particularly important. Respect and openness in dealing with colleagues, suppliers and customers is one of the cornerstones of our company culture. It should be fun to work here and with us! Together we want to achieve a lot and breathe more mutual appreciation and a positive vibe into a largely impersonal market. In the end, with C-Parts it's not just about the products but also about the 'how' the business is carried out in everyday life.

We hope that everyone can work and do business comfortably in a country where the mood is currently dominated by a lot of negative thinking. If we can contribute some positive impulses, then we have already achieved a lot of our

vision! Products Standard products Drawing Parts

Auel Produktion Calibration of Snap Nuts

We can press the opening by up to 0.1 mm to ensure the ideal fit for the component.

Pressing and Forming

We reshape the cage of cage nuts into grounding cage nuts. Other products, such as blind rivet nuts, can also be formed.

Press-Fitting of Thread Locking Inserts

To increase torque and improve the stability of the connection in press-fit nuts, hex nuts, and cage nuts.

THE AUDEL QUALITY INSPECTION. Certified according to DIN ISO 9001 We can provide a wide range of services for you. 100% THREAD INSPECTION 100% VISUAL INSPECTION TORQUE TEST We are your extended workbench for nuts in the Sauerland We can provide a wide range of services for you. Pressing in thread locking Calibration of clip nuts Stamping of grounding nuts Assembly of Plates / threaded bushings 9024 Cutting threads Assembly of components Pressing + forming Washing + degreasing of nuts Drawing Parts With Auel Concept 3.0 we offer a wide range of drawing parts made of metal and plastic. With our network in Europe and the Far East, we can develop attractive solutions for our customers. Of course, ready-packed sets and assemblies are also included here. We are also happy to take on other parts of the value chain and assemble our Auel standard products such as press-in nuts, threaded sleeves, blind rivet nuts, etc. in assemblies. Simply send us your technical drawing and the required quantity and we will immediately prepare an offer for you!
