Life is full of surprises. At EBSER we love these exciting, unpredictable and spectacular facts of life. That's why we develop and produce machines for the brush industry in Todtnau (Black Forest) since 1920. Machines which invite you to enlarge your horizons and make new discoveries. All machines build with future-oriented technologies, intelligent solutions and outstanding quality. Together with our customers we realize their ideas and wishes from development to commissioning. In addition, we offer all customers full service in terms of service, spare parts or trainings.

Product- Trimming- / Flagging machines

- Stamping- / Labeling machines
- Drilling and filling machines - Second hand machines - Retrofit projects

ServiceFor new machines, we can offer our customers trimming / cleaning or flagging machines, embossing / labeling and in addition, drilling and filling machines. We also offer tailor-made solutions in the field of automation at the entire level in field of ??brush production. We are also your contact point in case of spare parts for your Ebser machines. We supply original spare parts for Ebser automatic drilling and filling machines as well as trimming machines from the last 30 years. We overhaul and repair filling tools, drilling spindles etc. and offer a

grinding service for trimming units and serrated knives.
