Dziomba Fördertechnik - Quality is our drive For more than 40 years we have been your reliable partner for all aspects of bulk material handling. Founded at the beginning of the seventies in Solingen, in the heart of NRW, we produce today with the most modern machinery pulleys and components around the topic of conveying technology, bulk and general cargo conveying.

Our customers include well-known companies from almost all branches of industry around the globe. For surface mining, tunneling, coal-fired power plants, stone, lime and cement industries, fertilizer and food industries, we manufacture high-quality products for safe conveying.

Also maintenance and repair of existing components is possible - here we guarantee short-term delivery dates with highest quality. We are looking forward to your tasks.
