We deliver best performancePowerful reliable light crane systems, crane components and drives are our core competence. As one of the world's leading manufacturers, we have been offering our customers a comprehensive portfolio of solutions for their material flow and logistics needs for more than 200 years – enabling them to achieve the highest levels of efficiency and performance. Discover the world of Demag.

ProductsCranes and Cranes sets

From light crane solutions for small workshops to crane sets for dedicated crane applications for large manufacturers: we supply technology so that our partners can implement the best overhead load handling solutions. Our high-performance crane installations feature efficiency, reliability and maximum safety. They can be configured to meet specific needs: from simple lifting applications to high-tech solutions with assistance and convenience functions – for maximum safety, reliability and support during operation. Kbk Light Crane System - Modular and versatile/load capacities up to 3,200 kgKbk Pillar And Wall-mounted Slewing Jibs - Ergonomic workplace solutions Crane Sets for Universal Cranes - Hall cranes and overhead cranes

### **Hoist Units**

Our hoist units have served as reliable components in cranes and materials handling systems for many decades. All over the world. Customers in many industries and in more than 100 countries rely on our technology and expertise in lifting applications. For good reason: we offer a unique range of lifting appliances – from rope hoists and chain hoists to open winch units with load capacities of more than 230 tonnes.Rope Hoists - High handling rates up to 100 tonnesChain Hoists - Demag chain hoists - high productivity, efficiency, safety and reliability

### **Drives**

As a leading supplier of industrial drives, we offer the entire range of products – from sub-assemblies to complete systems. These include motors, gearboxes, geared motors and wheel systems. These components can be combined to create complete travel units. Frequency inverters and power supply lines round off our portfolio. All components are designed to match precisely for perfect drive element combinations and sophisticated controls for efficient integrated systems. Geared Motors - The perfect combination of tried and tested componentsMotors - Reliable drive unitsWheel Range - The right wheel for every applicationFrequency Inverters - For demanding drive applications up to 560 kWPower supply lines - Safe and reliable supply of power and data transferTransfer Carriage with Battery Drive

## Components & Parts

- Flexible and autonomous

Using our components, we have developed a unique range of products for cranes and machinery – always tailored to meet the specific needs of our customers. Every single component reflects our many years of experience: as a proven module for

crane installations, machinery and equipment and as a single component. Controllers and Wireless Control Systems - Safe and reliable supply of power and data transferPower Supply Lines - Safe and reliable supply of power and data transferDemag Apps - Demag's digital tools make it easier to handle your dataComponents for process cranes - Reliable components for maximum process integrityCompact Magnets - Reliable performance: flexible and safeCrane end carriages - Travel units that are ready to be installed

ServicesDemag is known worldwide for the reliability of its crane components. One reason for this is our global network of partners, who offer high-quality service in close proximity to our customers. Our partners are committed to keeping your equipment in safe and reliable condition with our original parts, expert training and sound technical support. Demag stands behind this network – for your peace of mind.

Demag stands for uncompromising quality. As one of the world's leading manufacturers of high-performance and reliable industrial cranes, crane components and drives, we offer our customers a comprehensive range of smart solutions for their material flow and logistics needs. Our name is synonymous with maximum safety, reliability and innovation. Based on our brand promise "Committed to performance", we provide our customers with smooth processes, maximum efficiency and best results.
