Startup & IOTTurn your dreams into reality with Hemargroup.
When you have a startup, it's very difficult to find a solid and reliable partner which
can follow you along with the development of your business. Hemargroup is one of
the few European players who can offer a 360° support to startups. From
developing your idea to building the first prototype, from studying a marketing
strategy to starting the mass production, from managing the logistics to having a
dedicated warehouse. Idea and Market DevelopmentSmall Series and Mass
