GECHEM is the external production department for your chemical-technical products. If you wish, we can take care of everything for you: from assisting with recipes to procuring raw material and packaging, from processing, formulating, and tableting products to palletising the goods that are ready for collection. In the field of detergents and cleaning agents, we also offer our customers recipes of our own that we happily produce and fill for you as private-label solutions.

The benefits that GECHEM offers you Our services take the pressure off your production facilities, enabling you to gain new capacities and respond more flexibly to any changes in demand. Our in-depth know-how of production technology, our extensive machine park and continuous quality control measures ensure moreover that you can rely on us meeting your individual product requirements at all times. Tell us about the challenges you face. We support you. Whether you wish to tackle capacity constraints affecting your production or filling process, increase the

efficiency of your production through outsourcing, lack suitable machinery for manufacturing certain products or need very specific packaging: Simply tell us about your challenge concerning procurement, processing, formulation, or handling of your chemical-technical products. Together we shall find a solution!

Overview of our product solutions
More than just contract filling: One of the strengths of GECHEM is our extremely wide range of solutions in the field of chemical-technical products. With our many years of experience and our large machine park, we can produce liquid and solid product solutions for you as well as assemble them using a wide variety of shapes and formats. Tablets
Whether you want to produce dishwasher tablets, limescale removing tablets, coffee machine cleaning tablets, toilet cleaner tablets, or tablets for technical applications: we not only have the right machinery for the production and pressing of tablets but can also offer you tried-and-tested recipes.

Powders and Granules

Do you need assistance with the production or filling of dishwasher powder, oxi stain removing powder, car windshield cleaning powder or other products from other industries? Not only can we process powders and granules but we also can fill them into almost all types of packaging that is commonly available in the marketplace.

Liquids

Whether we are talking about rinse aid, milk nozzle cleaner, brake fluid, radiator antifreeze or crop protection products: For the contract filling of liquids, we use semi-automatic or fully automatic filling and packaging lines with a variety of sealing solutions.
