Pressley - The Premier League of PrintPressley is a modern online printing company serving businesses, agencies, and marketing professionals across the German-speaking market. Behind the brand stands 2IP Printing Solutions s.r.o. - a printing company with more than 22 years of experience and over 3,000 clients served across 10 EU countries. What We PrintFlyers, folded leaflets (gate fold, roll fold, zigzag fold, cross fold), brochures with saddle stitching or perfect binding, posters, and custom print projects upon request. Why Pressley? Our production runs on a Heidelberg XL 106 - one of the world's most powerful sheet-fed offset printing presses, certified at the highest Champion efficiency level. We print according to ISO 12647-2 (FOGRA 51/52), the highest quality standard in offset printing. This means measurably accurate colors, consistent reproducible results, and no unpleasant surprises in the final product. We use exclusively PEFC-certified paper, avoid plastic packaging, and continuously minimize our environmental footprint - for clients who need to demonstrate sustainability, not just claim it. The ordering process is simple: submit an inquiry, receive a quotation by email, and place your order online. No complicated pricing calculators, no waiting in call queues. Fast, transparent, and reliable. Pressley. Print like the King.
