San Marino Telecom is a telecommunications company based in San Marino.

Fetches public sources used for this record trace the business history back to 2005. Industry labels attached to the company point to telecommunications, and the main verified web presence for this listing is smt.sm. Its registered legal form is società per azioni. Reported products and services include landline telephone and mobile telephony. The contact row focuses on the main headquarters entry rather than every subsidiary, plant, or regional operating company. A general email address is included because the company published one openly for broad contact instead of only specialist functions. The logo fields point to a direct website asset and, where available, a separately verified Wikimedia Commons file. Large international groups often expose several legal entities and regional contacts, so this row stays at the clearest group-level headquarters entry published during research. Fields that could not be verified live were left empty instead of being inferred, which keeps the dataset cleaner for audit, review, and importer mapping. This description was rewritten from fetched public sources in a neutral directory style for phpMyDirectory import and repeatable reuse.
