Orbitalservice GmbH

Kreuzdelle 13
Heimbuchenthal 63872

Phone: +49-(0)6092-822 94-0
Fax: +49-(0)6092 822 94-09

The company was established on 01.06.2008. Due to its experience of 20 years in orbital welding (application technology, equipment development and –manufacture) the company is specialized on the development, manufacture, renting and also the sale of these “products for the orbital welding technique”.We made it our business to develop practical, easily operated, affordable and seminal products. Not least are a service provider who is in the position to combine products of other manufacturers and to create the “perfect package” for you. If you already are a user you might know that not every manufacturer has a complete product-portfolio.We not only know names like Arc Machines Inc., Swagelok-Cajon, Orbimatic, Polysoude, ESAB, PRAI, STI, DimetricsLiburdi, Weldlogic, Tesch, Orbitec and ESS, they are our life.
