## BENNINGER GUSS AG

Fabrikstrasse Uzwil / Schweiz 9240

Phone: +41 (0)71 955 88 00 Fax: +41 (0)71 955 88 90

manufacture cast iron parts according to individual customer specifications. These specifications are clearly defined in terms of customer designs, special requirements, high-quality materials, additional processing requirements and deadlines. The part we play in this advantage consists of securing the market edge for our customers through innovative developments. This is why we consciously take "part" in the success of our customers too. BENNINGER GUSS is a leader in additive 3-D manufacturing Fast, reliable up to 4.5 tons piece weight. Raw or finished components from quantity 1. Casting PartsENGINEERINGMODEL-/MOULD-MAKINGDIGITAL CASTING PRODUCTIONPROCESSINGLOGISTICSTWO IN ONE CASTING PARTS orientates itself by specific requirements of the customers Every customer request is implemented as a unique case. What our customers expect from us, and our challenge, is to implement component-specific requirements with ideal production methods. Every component starts with its own requirements, and we convert your expectations into a cost-optimised solution. Simultaneous engineering - fast, and a reliable process from the get go. For the serial production of casting parts, we manufacture in our pattern shop precise

patterns made of high-quality materials on modern CNC machines.

Turning a part into an advantageThe employees of BENNINGER GUSS AG

For the flexible and fast production of prototypes, small batches or components with very complex geometries, we rely on our tried-and-tested digital production method DGP (digital casting production). With DGP, we offer our customers the possibility of procuring castings quickly and without any pattern costs. Stock PartsSTANDARDCONTINUOUS CASTINGPLATESHOLLOW BARS /

BUSHINGSCLAMPING ELEMENTSLOGISTICS STOCK PARTS offer you a comprehensive range of parts for standard solutions. The assortment contains continuous castings, BSP chill castings, standard plates, hollow billets/bushings and clamping elements. Do you want even more leverage? Rough-worked elements, components finished to drawings or even pre-assembled components? Let our specialists advise you. The complete assortment can be viewed online. Send any inquiries or orders to benshop(at)benningerguss.ch.
