HSieben Maschinentechnik GmbH

Kufsteiner Straße 25
Langkampfen 6336

Phone: +43 (0)5372 72277-0

For the past ten years HSieben has been affiliated with a worldwide operated group of companies who are leaders in the manufacturing of CNC-Engraving Machines. Since the demerger in 2008, we have been able to independently grow and better position ourselves as a service provider in the tool and die industry.Our team consists of young motivated employees who are experts in their industry through many years of experience.Our new and modern building provides our employees with the latest technology and first-class working conditions. For our customers, this means more flexibility, greater performance and increased efficiency.We are “service providers” and “problem solvers”. Our international contacts and finely interwoven network of expert business partners provides us with a broad spectrum of solutions to reliably process specific customer requirements and complex tasks. All deliveries are subject to the terms and conditions of the Association of the Austrian Machinery and Metalware Industries.
