For over 90 years, LOVATO Electric has been designing and manufacturing low voltage electrical devices for industrial applications. Established in 1922 in Bergamo (Italy), LOVATO Electric is a private company, managed by the same family of entrepreneurs for 4 generations.

To provide competitive products and services in the industrial automation and energy management fields is our company's "mission".

Our 14 branches abroad and a network of over 90 importers guarantee the availability of Lovato Electric products in more than 100 countries all over the world. LOVATO Electric has a range of over 18,000 products complying with the strictest requirements of international standards. Motor protection circuit breakers, contactors, pushbuttons, switch disconnectors, limit switches, digital multimeters, energy meters, soft starters, AC motor drives, automatic power factor controllers and engine and generator controllers are just some of the products designed and built by LOVATO Electric. Products
Motor control and protection
Control and signalling
Isolation and protection
Automation and control
Energy management
Configurators
