As a classic family company, we combine values and traditions with ingenuity and the drive for innovation. Since 1954 we have grown from a two-man business to a medium-sized company with almost 120 employees in Marktredwitz in Upper Franconia - with an unconditional focus on the highest quality, customer orientation and flexibility, we have succeeded in becoming one of the market leaders in the field of spring production.
116 EMPLOYEES AT THE HAGUE LOCATION10 THOUSAND SQUARE METERS OF PRODUCTION AREA200MILLION. SPRING PRODUCED ANNUALLY OUR PRODUCTSIngenuity, flexibility and an absolute focus on customer benefit characterize quality products from Hirsch - springs, rods and bent wire parts.

- Bars
- Tools WE ARE YOUR PERFECT PARTNER

Why a medium-sized family business is the best companion on the way to success.

BEST TEAM
Our employees feel at home with us and are therefore highly motivated and well trained.BEST F&E
Research & development is the core of our work - for better and more innovative products.
BEST INTENTIONS
We are committed to social and environmental issues - because tradition obliges.
BEST RESULTS
We are distinguished: As a middle class lion and with the Grand Prix of the middle class. INDIVIDUAL, MODERN, HIGH QUALITY AND FAST. WE MANUFACTURE ACCORDING TO YOUR REQUIREMENTSINDIVIDUAL CONSTRUCTION
Whether standard springs in large series, special CNC turned parts in small series or even individual pieces in manufacture quality: All products from Hirsch are manufactured according to your specifications in order to guarantee the greatest possible accuracy of fit and thus 100% functionality.MODERN MANUFACTURING
Modern products that fully meet your requirements must be manufactured in a modern way. That is why we at Hirsch have a wide range of production machines and CNC-controlled machines with which we can manufacture and process our entire product range. In addition to the most modern machines from leading manufacturers, we also use tools that we have developed and manufactured ourselves.HIGHEST QUALITY
When developing and manufacturing our products, we attach great importance to the highest quality - it is not uncommon for the springs or turned parts we manufacture to play vital roles, for example in medical technology or aerospace.
FAST DEVELOPMENT

In emergencies from our customers, we respond to inquiries as quickly as possible and deliver individual products as quickly as possible. Companies like to use our 24-hour prototype construction service to solve problems quickly.
