ROWEKO, headquartered in Lauffen am Neckar, is the specialist for product solutions for plastics. In the sector of commercial vehicles, we are one of the highest-quality national and international suppliers and we are particularly delighted with the increasing demand. Our customers appreciate us as an innovative developer and flexible supplier because our team implements solutions from sample parts and pilot series to mass products. Consistently high quality and with comprehensive service. We consequently manufacture "Made in Germany" in our own, modern and flexible machine pool at the company location in Baden-Württemberg. Moreover our highly-trained, experienced team, which supports our quality philosophy with great motivation, ensures the highest product quality.
